Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes..and proceeded to turn it across his knuckles as swiftly and smoothly as be bad with his right hand..Later, when the seven of them were gathered at the dinner table, the adults raised glasses of Chardonnay, the children raised tumblers of Pepsi, and Maria gave the toast. "To Bartholomew, the image of his father, who was the kindest man I've ever known. To my Bonita and my Francesca, who brighten every day. To Edom and Jacob, from who ... from whom I've

learned so much that has made me think about the fragility of life and made me realize how precious is every day. And to Agnes, my dearest friend, who has given me, oh, so much, including all these words. God bless us, every one." Not many men wore hats these days. Since his teenage years, Nolly had favored a porkpie model. San Francisco was often chilly, and he began losing his hair when still young. This back blow wasn't just sport, either, but more like Vietnam as lie sometimes told women that he remembered it. As though pitched by a grenade blast, Junior went from his feet to the floor with chin-rapping impact, teeth guillotining together so hard that he would have severed his tongue if it had been between them. Throughout the evening, Barty and Angel-sitting side by side and across the table from Paul-listened to the adults at times and occasionally joined in the larger conversation, but primarily they talked between themselves. When the kids' heads weren't together conspiratorially, Paul could hear their chatter, and depending on what else was being discussed around the table, he sometimes tuned in to it. He picked up on the word rhinoceros, tuned in, tuned out, but a couple minutes later, he dialed back in when he realized that Celestina, sitting two places farther along the table from him, had risen from her chair and was staring in amazement at the kids. Not one day in anyone's life, so her father taught, is an uneventful day, no day without profound meaning, no matter how dull and boring it might seem, no matter whether you are a seamstress or a queen, a shoeshine boy or a movie star, a renowned philosopher or a Downs syndrome child. Because in every day of your life, there are opportunities to perform little kindnesses for others, both by conscious acts of will and unconscious example. Each smallest act of kindness-even just words of hope when they are needed, the remembrance of a birthday, a compliment that engenders a smile-reverberates across great distances and spans of time, affecting lives unknown to the one whose generous spirit was the source of this good echo, because kindness is passed on and grows each time it's passed, until a simple courtesy becomes an act of selfless courage years later and far away. Likewise, each small meanness, each thoughtless expression of hatred, each envious and bitter act, regardless of how petty, can inspire others, and is therefore the seed that ultimately produces evil fruit, poisoning people whom you have never met and never will. All human lives are so profoundly and intricately entwined-those dead, those living, those generations yet to come-that the fate of all is the fate of each, and the hope of humanity rests in every heart and in every pair of hands. Therefore, after every failure, we are obliged to strive again for success, and when faced with the end of one thing, we must build something new and better in the ashes, just as from pain and grief, we must weave hope, for each of us is a thread critical to the strength-to the very survival-of the human tapestry. Every hour in every life contains such often-unrecognized potential to affect the world that the great days for which we, in our dissatisfaction, so often yearn are already with us; all great days and thrilling possibilities are combined always in this momentous day. After using a paring knife to section and core an apple, Paul withdrew a sheet of stationery from his desk and uncapped a fountain pen. His penmanship was old-fashioned -in its neatness, as precise and appealing as fine calligraphy. He wrote: Dear Reverend White .... "In the early hours of January seventh," Nolly continued, "Miss White died in childbirth, as you figured." With the salt and pepper shakers, Tom walked them through the why-I'm-not-sad-about-my-face explanation that he'd given to Angel ten days previously. Rena was cheerful, short, and solid. Her waist measurement must have been two-thirds her height, and she favored floral dresses that emphasized her girth. With a German accent and in a voice that always seemed about to dissolve in a great gale of mirth, she said, "Madchen lieb, you look like a Christmas candle to me." "What are you strongest in?" He pointed at his feet. "Toes, toes, toes, toes, toes, toes, toes, toes, toes, toes." "Oh, my Lord," Chicane groaned as he and Sparky half carried Junior into the bathroom. They were as gracious as any people he had ever met, but they also seemed genuinely interested in his story. He wasn't surprised that "They've gone to bed. They're tired," Wally told her as he put the car in gear and released the hand brake. "Aren't you?" At nearly forty years of age, Edom still dreamed of that grim summer afternoon, although not as often as in the past. When it troubled his sleep these days, it was a nightmare that gradually metamorphosed into a dream of tenderness and hope. Until the last few years, he'd always awakened when the roses were being jammed into his mouth or when the thorns flicked through his eyelashes, or when Agnes began to strike their father with the Bible, thus seeming to assure worse punishment. This additional act, this transition from horror to hope before he woke, had been added when Agnes was pregnant with Barty. Edom didn't know why this should be so, and he didn't try to analyze it. He was simply grateful for the change, because he woke now in a state of peace, never with worse than a shudder, no longer with a hoarse cry of anguish. Then by ambulance to the hospital, whisked into surgery, and for a while, blessed unconsciousness. He groaned. "That just doesn't cut it, Mom. If I gotta be blind, I think I should get to say peed off." In the end, the reason for the walking was the walking itself. Walking gave him something to do, a needed purpose. Motion equaled meaning. Movement became a medicine for melancholy, a preventive for madness. He left by the back door, to avoid the aftermath seeping across the foyer floor. Fog enveloped him, cool and refreshing. He had experienced considerable self-revelation during the past eighteen hours, but of all the new qualities he had discovered in himself, Junior was most proud of the realization that he was such a profoundly sensitive person. This was an admirable character trait, but it would also be a useful screen behind which to commit whatever ruthless acts were required in this dangerous new life he'd chosen. As though giving voice to her worst fear had made it come true, Agnes was seized by a contraction so painful that she cried out and clutched the paramedic's hands tightly enough to make him wince. She felt a peculiar swelling within, then an awful looseness, pressure followed at once by release. The candlestick was dry. Holding this pewter bludgeon with a paper towel, Junior replaced it on the table as he had found it. He picked up the candle from the floor and married it to the stick. Two teenage boys and one elderly woman scrambled across the sidewalk, grabbing at the ringing rain of quarters. They caught some, but others bounced and twirled through their grasping fingers, rolling-spinning away into the gutter. People that he was innocent and, in fact, constitutionally incapable of premeditated murder. His request felt like an assault. Agnes almost rocked backward as though struck. "He's crafty, you say. Can you use him?" "You know," Tom said when the second round of drinks arrived, "hard as it is to believe, some places never heard of martinis." Agnes's contractions were getting more frequent and slightly more severe, so she said, "All right, but let me go tell Edom and Jacob that we're leaving." Tom stared down into the oceanic depths of the city, through the reefs of buildings, to the lamp-fish cars schooling through the great trenches. Wishing he had left the gauze wrappings on his face, but afraid that the airwaves might already be carrying news of the bandaged man who had killed a minister in Spruce Hills, Junior abandoned the Dodge and hurriedly walked back to the private-service terminal, where the pilot from Sacramento waited. At the sight of his passenger, the pilot blanched and said, Allergic reaction to WHAT? And Junior said, Camellias, because Sacramento was the Camellia Capital of the World, and all that he wanted was to get back there, where he'd left his new Ford van and his Sklents and his Zedd collection and everything he needed to live in the future. The pilot couldn't conceal his intense revulsion, and

Junior knew that he would have been stranded if he hadn't paid the round-trip charter fare in advance..A delay of a few hours, before getting her under a physician's care, might still be risky. But so was forcing her into a local hospital to endure the mortification she desperately wanted to avoid..Seraphim's child had been alive is long as Naomi had been dead, almost fifteen months. In fifteen months, Junior should have located the little bastard and eliminated him..The apartment above Elena's Fashions could be reached by a set of exterior stairs at the back of the building. The climb had never before taxed Agnes in the least, but now it took away her breath and left her legs trembling by the time she reached the top landing.. "Our little girl's going to walk backward her whole life if you drive in reverse all the way to the hospital." Although her hands were shaking and her knees felt as though they might buckle, Agnes lifted two pies off the table.. "AND I DRINK CHAMPAGNE ALL DAY," said Miss Cheese, pronouncing it "cham-pay-non." "If he and Agnes were your age, I'd agree. But she's got ten years on you, and he's got twenty, and no previous generations were as wild as yours." His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain-especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist.. "And, of course, you'll need to make arrangements for the body," said Dr. Lipscomb. "Sister Josephina will provide you with a room, a phone, privacy, whatever you need, and for however long you need." One of the most unnerving aspects of life in southern California was that earthquake weather came in so many varieties. As many days as not, you got out of bed, checked the sky and the barometer, and realized with dismay that conditions were indicative of catastrophe.. To the left, a door led to a back staircase, accessible with the special key already in his hand. To the right: a key-operated service elevator for which he'd been provided a separate key.. So that my mind could move about among the years and centuries without getting things all out of order, and to keep contradictions and discrepancies at a minimum while I was writing these stories, I became (somewhat) more systematic and methodical, and put my knowledge of the peoples and their history together into "A Description of Earthsea." Its function is like that of the first big map I drew of all the Archipelago and the Reaches, when I began to work on A Wizard of Earthsea over thirty years ago: I needed to know where things are, and how to get from here to there-in time as well as in space.. "I'm saying, for all I know." She took her hand off his thigh. "What's all this about Celestina, anyway?" "Please just call me Tom. I've been forcibly retired from the Oregon State Police, with full disability because of this face, so I'm not officially a detective anymore. Yet until Enoch Cain is behind bars, where he belongs, I'm not ready to be anything but a cop, official or not." Although Dr. Lipscomb spoke almost as softly as the long-winded pianist, and though the physician's narrow face was homely and devoid of any trace of violent temperament, Neddy Gnathic flinched from him and retreated across the threshold, into the hallway.. Again he fired into the lock, squeezed the trigger a second time, and discovered that no rounds remained in the magazine. Extra cartridges were distributed in his pockets.. Barty rode with his mother in her green Chevrolet station wagon. Because the cakes, pies, and gifts were too numerous to be contained in one vehicle, Edom followed them in his flashier yellow-and-white '54 Ford Country Squire. "You look very, very handsome this morning, Mr. Barty," squeaked Pixie Lee, who was something of a flirt. "You look like a big movie star. Thrusting his finger toward the table with each repetition of the word, Barty happily insisted, "Pie, pie, pie, pie, pie, pie, pie, pie, pie." done with it at last, he opens his mouth, lets the roses be shoved in, the bitter green taste of the juice crushed from. "You'll catch pneumonia," she warned, reaching across the boy to flip the passenger's-side vent toward him.. He had bribed a parking attendant to keep his Mercedes at the curb in a valet zone, in front of a nearby restaurant, so it would be instantly available when needed. He could also leave the car and follow Celestina on foot if she chose to stroll home from here.. Simon Magusson-capable of representing the devil himself for the proper fee, but also capable of genuine remorse-visited Vanadium in the hospital, soon after learning that the detective had awakened from a coma. The attorney shared the conviction that Cain was the guilty party, and that he'd also murdered his wife.. NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity.. "I believe I'll just wait here until Mr. Cain wakes," Vanadium said. "I've nothing more pressing to do." When Junior tried to lift Victoria, her voluptuousness lost its appeal. As dead weight, she was heavier than he expected.. Prudence required that they strategize as though Enoch Cain were Satan himself, as though every fly and beetle and rat provided eyes and ears for the killer, as though ordinary precautions could never foil him.. Though she was only a week past her third birthday, Angel always selected her own clothes and carefully dressed herself. Usually she preferred monochromatic outfits, sometimes with a single accent color expressed only in a belt or a hat, or a scarf. When she mixed several colors, the initial impression that she gave was of chromatic chaos-but on second look, you began to see that these unlikely combinations were more harmonious than they had first seemed.. Another machine beside the first, stocked with copies of a sexually explicit publication for gays, fired a quarter that hit Junior's forehead. The next snapped against the bridge of his nose.. Angel pointed to a Mercedes parked about forty feet behind the Buick, just as its headlights went off.. "Better. Fear doesn't require him even to seduce a woman or to buy a bottle of whiskey. He just needs to open himself to it, and he will be filled like a glass under a faucet. As difficult as this may be to comprehend, Cain would choose to be neck-deep in a bottomless pool of terror, desperately trying to stay afloat, rather than to suffer that unrelieved hollowness. Fear can give shape and meaning to his life, and I intend not merely to fill him with fear but to drown him in it." "Do you know him?" Edom asked, gazing longingly now at the open door, from which Jacob had turned away. "Obadiah Sepharad?" "Immediately at the thought of regurgitation, his abdominal muscles contracted like those of a laboratory frog zapped by an electric current, and he choked on a rising horror.. Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage.. "That's right," Celestina told Wally. "This isn't wagering. What's wrong with you?" He fished the sound-suppressor from a jacket pocket, drew the pistol from his shoulder holster, and began to screw the former to the latter. He misthreaded it at first because his hands had begun to shake.. Being blind had few consolations, but Barty found that not being able to look at his uncles' files and books was one of them. In the past, he never really, in his heart, wanted to see those pictures of dead people roasted in theater fires and drowned bodies floating in flooded streets, but a few times he peeked. His mom would have been ashamed of him if she'd discovered his transgression. But the mystery of death had an undeniable creepy allure, and sometimes a good Father Brown detective story simply didn't satisfy his curiosity. He always regretted looking at those photos and reading the grim accounts of disaster, and now blindness spared him that

regret..From out of the fog and darkness came the slap of running feet on bricks. He was sprinting toward the back of the house...Junior was starving, but he didn't trust his bowels enough to risk dinner in a restaurant. The affliction seemed to have passed, but it might recur when he had food in his system again..He was having difficulty focusing his attention on the problem at hand. Through his mind, odd and disconnected thoughts rolled like slow, greasy, eye-of-the-hurricane waves on an ominous sea..*"God bless us, every one,"* Agnes repeated with all her extended family, and after a sip of the wine, she made an excuse to check on something in the kitchen, where she pressed hot tears into a cool, slightly damp dishtowel to prevent the telltale swelling of her eyes..Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain.
